

The
Flight

Hey ERIC - ☺

Where do I begin? Remember
back in 8th grade and now were
graduating! ☺ Can you believe
it? I can't ☺ Don't forget English
and Econ! HA HA! I wish you the
best of Luck through out the
years! Thanx for being such a
great friend!! Good Luck!! ☺

☺ Ya
Loriana
(Lulu) ☺

ERIK-

Let's see, English was a
blast. You, Rodney & Heather
made the class fun. Thanx
god no more high school.
Yeah - and no more

Ms. Lamar. What
an air head. Hope
you enjoy your
freedom. Good
luck in the
future. Keep
in Touch! Love

Ya Fuentas
Lisa Fuentas

Erin,
It's been an interesting year
to say the least, you must
be glad to get out of this
hole. I would be. Take care
of yourself + I'll see you
in the future.

Chris
Kings

Before school, Robert Rutledge
and Stephanie Martin, fortify
themselves to meet the oncoming
day.

Flash on Eagles!

Together

Campus. Buildings. Classrooms. Teachers. Students. Every year each of these strives to be different from those of the past, and tries to set the standards for the ones in the future. In actuality, the only ones that are different, are the people on campus, in the buildings, in the classrooms. Their individual personalities are present, flashes of color in a broad spectrum. Funny as it may seem, it's the striving for individuality that brings a student body together.

The band plays for our first pep assembly of the year

In between classes, Karen Schlessinger grabs her next period's books

Right before his final dive, during the belly flop contest, **Parker Steel** emotionally prepares himself and the crowd.

Best Smile candidates **Claudia Rosendahl**, **Podraic McCoy**, and **Jim Sage**.

Mr. Moody's history assignments are as entertaining as you make them according to **Kellie Wylie** and **Christie Schwarz**.

Our improving football team lines up to try to prevent the offense from going further.

Friends are really supportive of each other, as Russell Rowland finds out. His friends Deanna Gloster, Pattie Towler, and Michelle Stolar give him a lift.

Rich Devore, an Estonika alumni, gives good advice to his water polo friends.

Everyone has their 'place' during lunch. Michelle Anderson, Devi Hoyt, Kai Hoyt, and Michelle Hart.

Red Hot

The class of 88 flashes red. And every page flashes memories into the minds of students. Red is hot, it's bright, it's cool, it's noble, it's happenin', and it stands out from all other colors. The goal is to stand out in everything: in academics, in spirit, in clubs, in sports, and in life. Friends, family, boyfriends, girlfriends, laughing, talking, sharing, smiling, and crying are all part of life. Stand out in life. Life - the most important.

A picture is cause for quite a commotion. Felina Danalls, Dara Aicklen, Amy Burke, Ali Rothman, and Jenny Romm, all squeeze in to be seen.

Miss Ross's class isn't all work and no play!

Scott Freeman gives us "bowling for \$"

Flash On *Student* Life

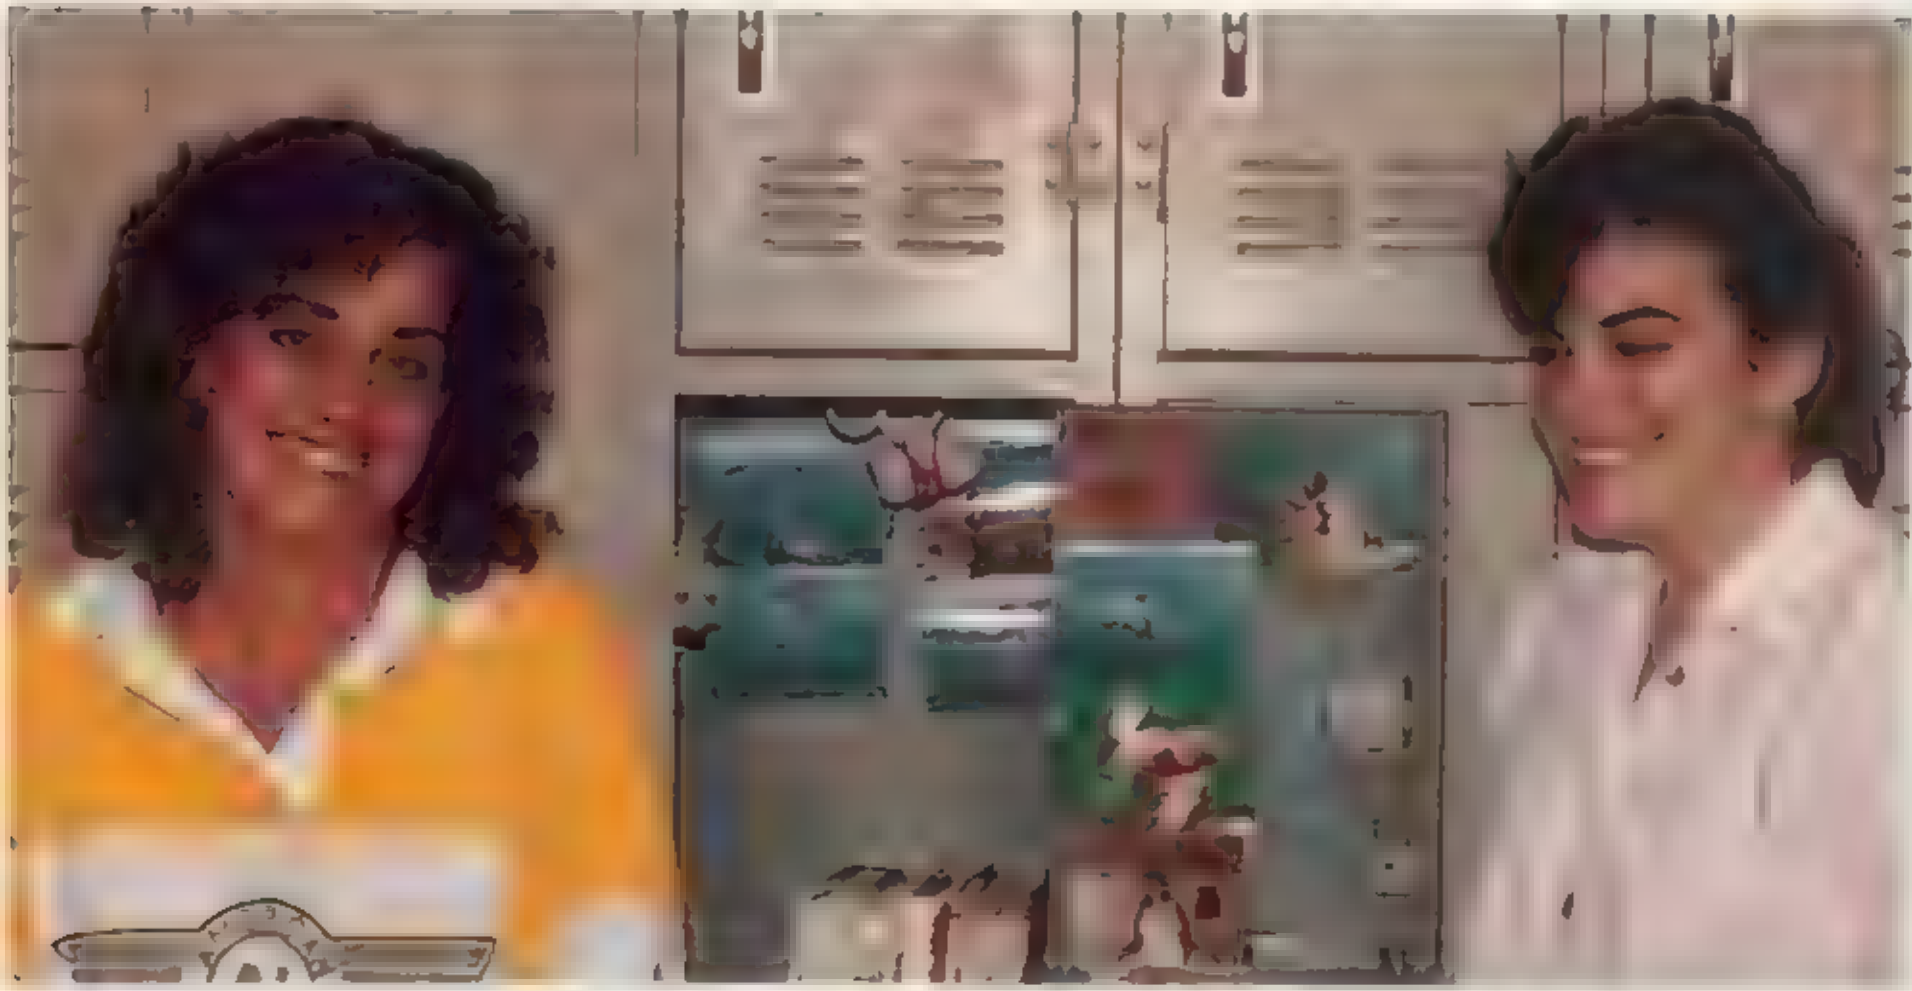

Time outside of class is a small portion of a student's life. That time has to be made the most of to fully benefit the student. This time is provided for students to relax and make themselves ready for another day at school. Different students relax in different ways.

During the pep assembly this week students put the school spirit in their hands with their raised hands.

"What a boring world
without pictures!"

Senior Summer:

A Time Never To Be Forgotten

A sea of emotions is swirling around seniors as they prepare to leave their high schools. For many, it's a time of reflection, a chance to look back on the years that have shaped them. The summer before senior year is a time of transition, a time when the familiar becomes the unfamiliar. The days are long and the nights are short, and the future feels both exciting and daunting. As the sun sets on the school year, seniors find themselves in a unique position, looking back on a life of learning and growth, and looking forward to the challenges and opportunities of the future. It's a time of both loss and hope, a time when the past and the future meet in the present. The summer before senior year is a time of reflection, a chance to look back on the years that have shaped them. The days are long and the nights are short, and the future feels both exciting and daunting. As the sun sets on the school year, seniors find themselves in a unique position, looking back on a life of learning and growth, and looking forward to the challenges and opportunities of the future. It's a time of both loss and hope, a time when the past and the future meet in the present.

"Now that it's our last year together, we're becoming better friends."

Deanna Panaris.

ASB did an excellent job in the past year!" said **Brett Moody**.

ASB had many fundraisers for each of the four different classes. The freshmen had a few car washes and a carbash. The sophomores, juniors and seniors also had car washes of their own. The money they earned went to several activities such as winter formal, homecoming, and prom. The Red Cross blood drive and the SOS (Save Our Selves) canned food drive were also initiated by the ASB. In total 61 pints

of blood was collected and over 500 cans were contributed to SOS.

Another popular event organized by ASB was the Senior/Faculty basketball game held on April 7. Students had to either purchase a ticket or bring a donation to the game.

Helping Students Explore The Wild World Of Reading

Joe Lauer, sophomore mentored, "It's a killer class." Reading Lab, a newly established course, involved individual vocabulary composition, and will eventually include speed reading.

Students earned English credits but needed a teacher recommendation to enroll.

This course was held all six periods

and was designed to accommodate any high school student for one semester to two years.

One junior, **Brenda Alvarado**, said, "It's helped me in reading a lot better than other classes have."

This first year was expensive due to the new equipment, such as headsets and tape players, but will benefit students in the long run by

helping them read along with a voice, reading the story aloud and understanding comprehension questions.

The students had free reading time with their own choice of books and also participated in co-operative learning through group projects.

Joe Lauer recommended it "fully."

Anxiety

Did you cram for the SAT or one of its offshoots such as the PSAT or ACT?

Or did you study the sample test in the bookier "Taking the SAT" book?

Senior, **Kris Choi**, said, "I was a little worried, but I'm going to try my best for the SAT."

Either way you've experienced a quite unique SAT night madness, as sophomore **Barbara Hargrove** described it.

There are other terms, ones psychologists might use: Anxiety. Fear of failure.

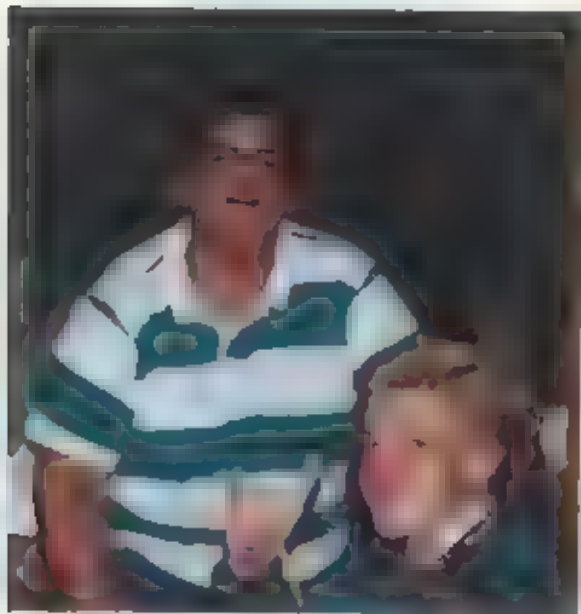

No matter how prepared you were the first time, you thought you might fail. Some even stayed up all night before the test, studying for the sake of a good score.

Of course, there were those who didn't really care what they got on the SAT or didn't take it.

They missed out on a nerve-wracking experience. Were they?

Who knows?

... "Winning Position," **Joe Lauer** decided to read another assign-

Best Artist

Shane Burckle must have something going for him. After all, Mr. Richard Smith and Mrs. Constance Cassidy picked him for best artist.

He's got a good background in art," said Mr. Smith. Burckle has taken six years of art including two in high school. "He's one of our trained ones," said Mrs. Cassidy with a chuckle.

Burckle is interested in commercial arts and computer graphics such as animated logos. "It's a way to express myself," he said.

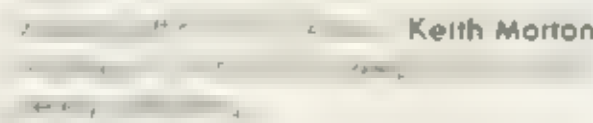

One of my main influences recently is Patrick Niget, who died a couple years ago," Burckle said.

Burckle entered in a lot of competitions this year, said his teachers. "This should be a big year for Shane," said Mrs. Cassidy.

He had a job at a printing firm this year and plans on continuing his career in the arts.

The band members requested

the mural to be painted by the art club members. The mural was painted by the art club members.

The mural was painted by the art club members. The mural was painted by the art club members.

Honors

The second year honors program in the senior year. The junior high students faced extremely difficult assignments. One was the requirement that students were required to write a paper in the first quarter that counted for one third to the students' grade. The topic was the causes of the Civil War. Half of the class was preparing for it by reading a series of articles about the war from a point of view, and

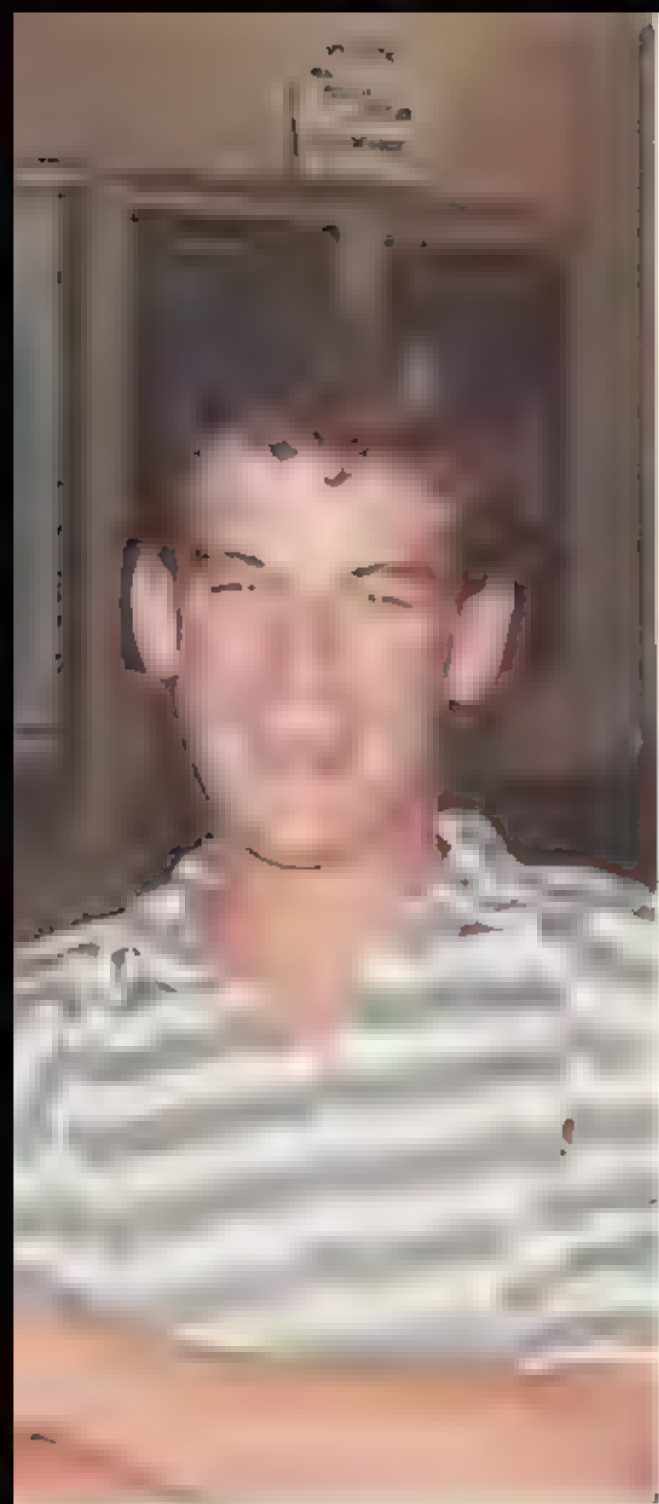

The reason for the paper was to give the students with the ability to need to have a university or college they might attend.

The classes were taught by Mr. Lawhorn, Mr. Cutler, and Mrs. Kent, three periods a day.

F

Insects!

Of the most dreaded assignments for students was the insect collection. Students in **Mr. Tom Fisher's** biology class weren't required to do an insect collection as "he thinks they're useless," said **Barbara Hargrove** with a grin.

However, the unfortunate students in **Mr. Ed Wynkoop's** class had to make one around May. "If the students were looking forward to collecting and mounting the specimens **Heather Horvat** admitted she didn't understand why they had to "go out, catch the bugs, kill them, and pin them to a board. That's being too cruel to the bugs."

Debbie Hargrove pictured above with an insect collection commented that "making it would be too bad, but collecting the insects would be the worst part, looking under rocks and stones and so on."

The idea of pinning the insects to a board and spreading their wings out and all does not appeal to me said **Jennifer Stark**.

Computer Age

For many people, computers are immensely complex. They have many keyboards and large graphs. However, every day more and more men and women use the computer to help with their careers and personal lives. Of course, along with its growing popularity, more Estancia students participated in computer courses. Estancia had one of the most extensive computer programs in the area. The money for the computers came from Coastline Regional Occupation Program. This program offered students a chance for hands-on training.

Stephany San Jose, a first year computer class student, stated, "I want to be a lawyer and I thought that computers would help me list all of my clients!"

All those wild sports fans, can use a floppy disk to store the results of basketball games, while a high school student could turn the computer into a homework companion.

Lupe Gonzalez works in her computer lab.

TV Career?

The Los Angeles-based program is a unique blend of academic and practical training. The officers of the program are Angela Dusi, Zonia Gomez and Yami Franco (pictured).

The program is designed to provide students with a comprehensive understanding of the television industry. It includes coursework in production, editing, and directing, as well as hands-on experience in a professional studio setting. The program is open to students who are interested in pursuing a career in the television field. The program is located in Los Angeles, California.

The proceeds from these field trips will be used to fund a scholarship for students who are interested in pursuing a career in the television field.

Adaptive P.E.

Adaptive Physical Education is about the same as general P.E., but modified. For instance, the students in Adaptive P.E. walked along a course instead of ran, lifted weights to music, participated in half-court basketball in the girls' gym.

Many of the students really enjoyed the class. **Rachel Jortner** liked the class because "it's very fun, you get a lot of attention from the teacher, and you get to know each other really well."

Kim Chondronait commented that their instructor, **Craig Collins**, was "an easy teacher to get along with." **Jortner** interjected that **Collins** was "more understanding."

Clayton McKinney especially enjoyed lifting weights "to build up my arm muscles."

"I enjoy the walking part because I get to see a lot of my friends and talk with them," said **Minh Nguyen**.

Jumping over the hurdle is David Trout. Photo by Octavio Echegaray.

Get out in that fresh air and Get that blood pumping

Physical education is an important part of a child's education. It helps them to develop a healthy lifestyle and learn the importance of exercise. Many schools have physical education programs that are designed to help children learn the basics of sports and fitness.

Physical education is a great way for children to learn about the importance of staying active and healthy. It also helps them to develop the skills they need to be successful in sports and other physical activities.

Hoo Memorial

The Bryan Hoo Memorial Award is given each year to student who worked extra hard, who exceeded their own expectations, and who overcame their handicap.

Two of the 1987 recipients are **Stephan Smith** and **Eric Heslington** (pictured above).

The award was established in 1985 by **Mr. and Mrs. Hoo** in memory of their son **Bryan**, who died at Estancia, who died in 1981.

Nominations for the award can be made by teachers, staff, or students.

Mrs. Nancy Ferda substitute for Mrs. Gerry Lumion, Bruce King and Van Lawrence work on a math program on their computer.

Overcoming Difficulties And Succeeding In Achieving Their Goals

The first of the students to be interviewed was Miss Toni Acane, a senior at the school. She is a member of the National Honor Society and has been elected to the Student Body. She is also a member of the National Honor Society and has been elected to the Student Body. She is also a member of the National Honor Society and has been elected to the Student Body.

Understanding

"We are like a big family", stated **Kym Krankewicz**. This year, many Estancia students were given a chance to participate in a new program called the Stop in Corner headed by **Gary Johnston**, **Julie Horn** (pictured) and **Lynn Bloomberg**.

After a semester of training in regular Peer Counseling courses, each student became eligible to help other students as a Peer Counselor. Many students had to either stay after school or arrive to the school at seven o'clock in the morning, but most felt that the sacrifice was worth it.

This program helped me understand myself and keep my sanity, explained **Andy Felix**, a dedicated Peer Counselor.

By having someone to talk to of their own age, the students found it easier to open up and help themselves.

Stagecraft

It exactly who are those
behind the scenes
anyway?

These students take a class called stagecraft, taught by Mrs. Constance Cassady which includes designing and painting the sets, working with lights and sound, and all aspects of production.

Amy Young describes Mrs. Cassady as a very strict teacher. Mrs. Cassady asks you to think of a room, for instance, a dining room and you get to decide how it should look. It's very creative and you can do anything you want to do about it.

Jason Goddard enjoyed the class because "you get to be creative and you can do anything you want to do about it."

Students enjoyed stagecraft for many reasons. "All my friends like it," said Henry Vandoorn.

Quaking And Shaking At 6.1

THE EARTHQUAKE THAT STRUCK THE SAN FRANCISCO AREA AT 5:04 P.M. WEDNESDAY, FEBRUARY 9, 1992, WAS A 6.1 MAGNITUDE quake, according to the U.S. Geological Survey. The quake was felt throughout the San Francisco Bay Area and caused significant damage to buildings and infrastructure. The earthquake was the largest to strike the area since the 1906 San Francisco earthquake. The quake was caused by a rupture along the San Andreas Fault, which runs through the San Francisco Bay Area. The rupture was about 10 miles long and caused a displacement of about 6 feet. Student Senate

The Student Senate is a group of students who represent the student body. They are elected by the students and work with the faculty to make decisions about the school. The Senate is responsible for many things, including the school budget, the school calendar, and the school's policies. They also work to improve the school's facilities and programs.

Dr. Robert Francy, c

Mark Korando described the need to be discussed. He said that the school should have a more open and honest communication with the students. He also said that the school should have a more active role in the community. He said that the school should be a place where students can learn and grow, and where they can make a difference in the world.

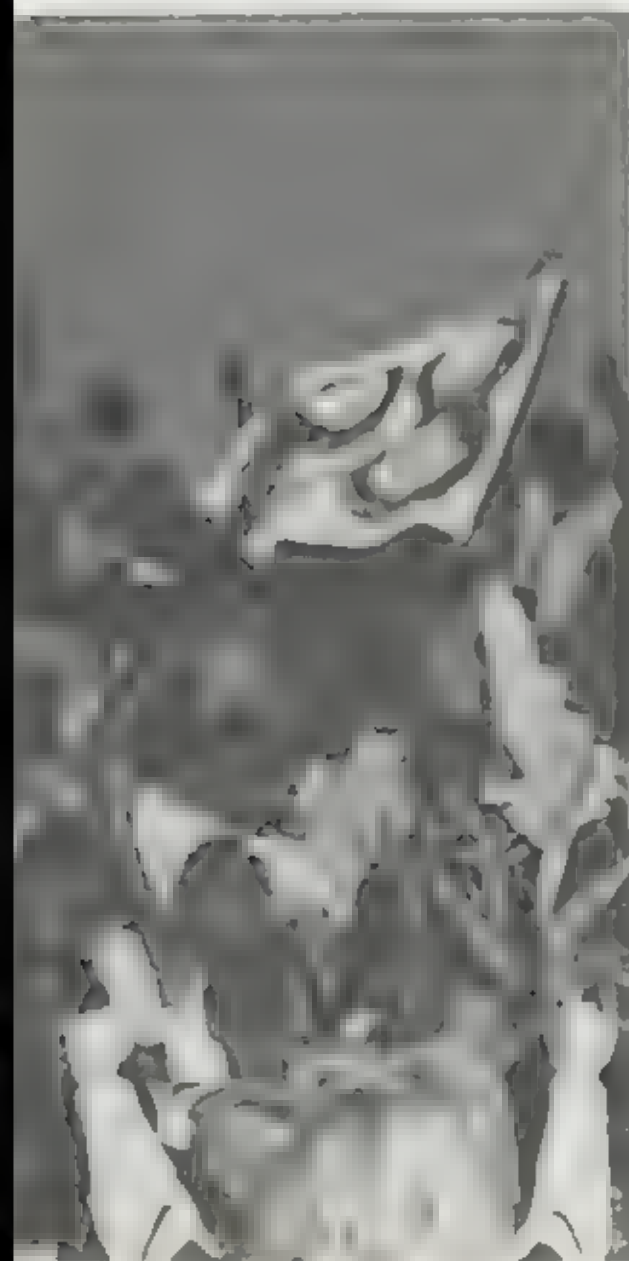

Carol Zambel and Gary Bondoc

Senior Lawn?

It's a tradition at the University of Wisconsin-Madison that has been going on for over 100 years. Every year, the senior class gathers on the lawn in front of the Old Capitol building for a group photo. This year, the photo was taken on a cloudy day, and the students were dressed in a variety of styles, from formal to casual. The photo is a testament to the school's long history and the enduring tradition of the Senior Lawn.

Art of Creativity

Interest in the arts is a natural part of a child's development. It is a time when children are exploring the world around them and expressing their thoughts and feelings through their art. This is a time when children are learning to think creatively and to solve problems. It is a time when children are learning to work together and to share their ideas. It is a time when children are learning to be proud of their work and to take pride in their accomplishments. It is a time when children are learning to be creative and to think outside the box. It is a time when children are learning to be artists and to create their own world. It is a time when children are learning to be creative and to think outside the box. 1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for ensuring the integrity and transparency of the financial system.

2. The second part of the document outlines the various methods used to collect and analyze data. It highlights the need for consistent and reliable data collection techniques to ensure the validity of the results.

3. The third part of the document describes the process of identifying and addressing potential risks. It stresses the importance of proactive risk management to prevent any adverse impacts on the system.

4. The fourth part of the document discusses the role of technology in improving efficiency and accuracy. It mentions the use of advanced software and tools to streamline the data collection and analysis process.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It reiterates the importance of ongoing monitoring and evaluation to ensure the system remains effective and secure.

LeBaron Monica Caballero Kathy Nichols Lisa DeLong Paul

Frosh: 1999-2000

Even though freshmen were looked down upon by many upper classmen, they made it through the year with ease.

They had difficult times, such as being called a "scrub", or just getting used to the different surroundings.

But there were also good times: laughs, reunions of old friends, and memories from the last few years. New friends came into the picture as we

The year opened with new subjects and exciting obstacles that needed to be overcome and overcome they were. Being able to fit in with the others was perhaps one of the biggest obstacles many had to face.

The freshman class had a good year and one that would certainly be remembered by many.

This is a new beginning of another Eagle

Joseph Melze in right situation

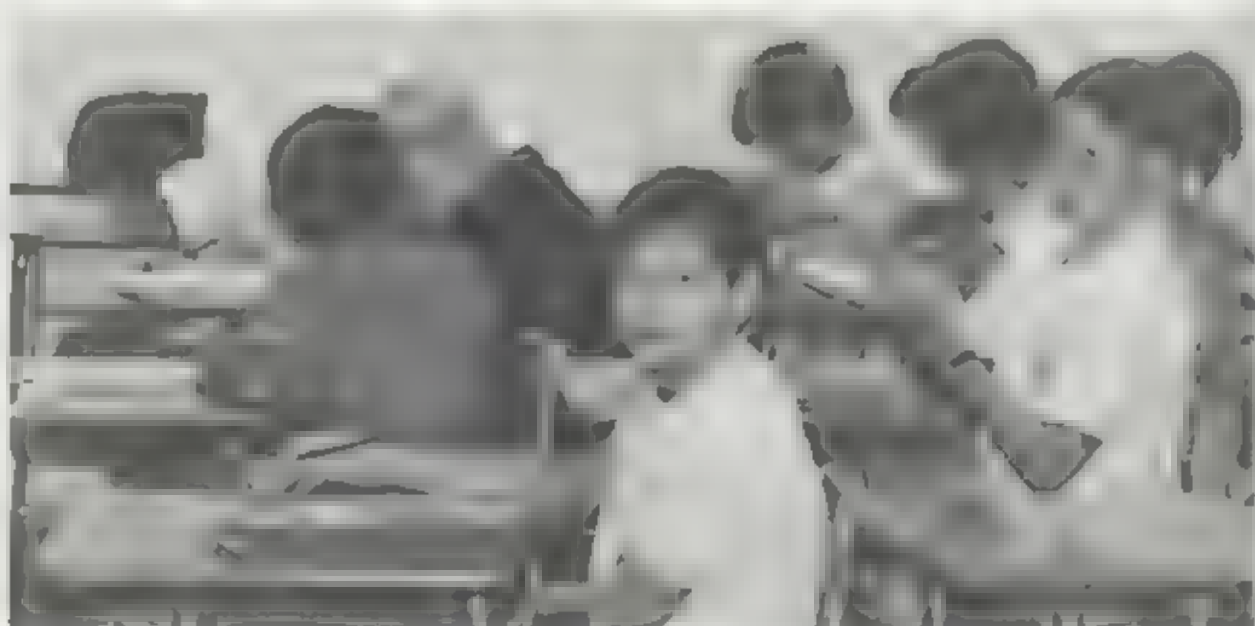

The first year of high school is a time of great change and growth. As you begin this journey, remember that you are not alone. Your teachers, counselors, and peers are here to support you. Embrace the challenges and opportunities that lie ahead, and you will thrive. Welcome to the Freshmen Class!

This year's freshman class president **Brandon Johnson** started his class off right. Jumping right into his presidency, **Johnson** became involved with his class. He started many fund raisers such as the freshman car wash and the "car bash" (which was used as a stress releaser). For **Johnson**, the year's main goals were "To have fun and to get everyone involved with the school." The involvement of each individual was encouraged.

It shouldn't be the "in" crowd. That's not right", said the president.

Of course the fear of being victims of the senior rights was predominant for most freshmen, but they all learned to fight the pressure from the upperclassmen with a class spirit, that was one of kind.

To sum up what high school was like for the freshmen, in the words of **Johnson**, "at the beginning it was really different from what we had before, but now it's a regular school."

Being a junior definitely had its advantages. Despite the increased difficulty of their classes, juniors were blessed with several privileges and advantages.

Juniors were upperclassmen without the hassles and worries of being a senior. Almost all could drive and leave the campus at lunch. And for the students with stricter parents, the advent of their sixteenth birthday meant they could finally date.

There was also an advantage to

the increased demands on a junior. **Rod Planchon** said, "I feel as juniors we are much more aware of our surroundings which help us to be more mature." There was a sort of comradeship among juniors that had not been there before.

For those who believed that there was nothing special about their junior year, take into consideration what **Lance Ely** had to say, "The parties are better!"

The parking lot was full of cars and at three o'clock came pouring out. Some people thought that the different cars showed the school's character and diversity. But others, such as **Phillip Mansfield** thought there were just many

by Stacie Lucia

Juniors:

A student could only get an off campus permit for lunch time, if they were a junior or senior. Juniors received this privilege of being upperclassmen. But where did most of the students go, in the short forty minute lunch break?

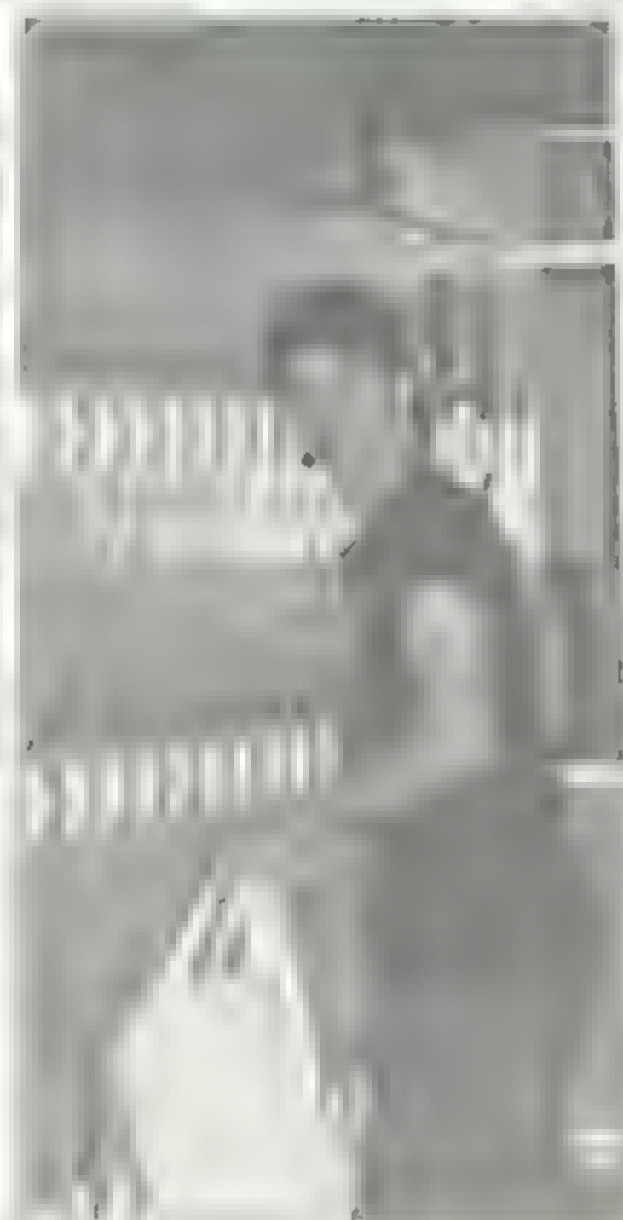

Fast food restaurants (if you can call them restaurants), took the lead for the most frequented stop. Included in these were MacDonald's, Burger King, Del Taco, and Chili's.

Also, a friend's house was a nice place to go to relax for a few minutes before returning to the monotonous daily routine. While there, a person could get caught up with all the latest on the noon hour soap operas.

Of course, there was the difficulty in getting back to school on time for fifth period, so some people were forced to give up their daily lunch excursions. But no matter where they spent their lunch, it was a needed break for juniors to recuperate and get ready for afternoon classes.

5/2 Deana Graham returns to school

Later April - Kevin Moore returns, this time for the assembly line.

Juniors!

Nicole Bading

Mike Krutz

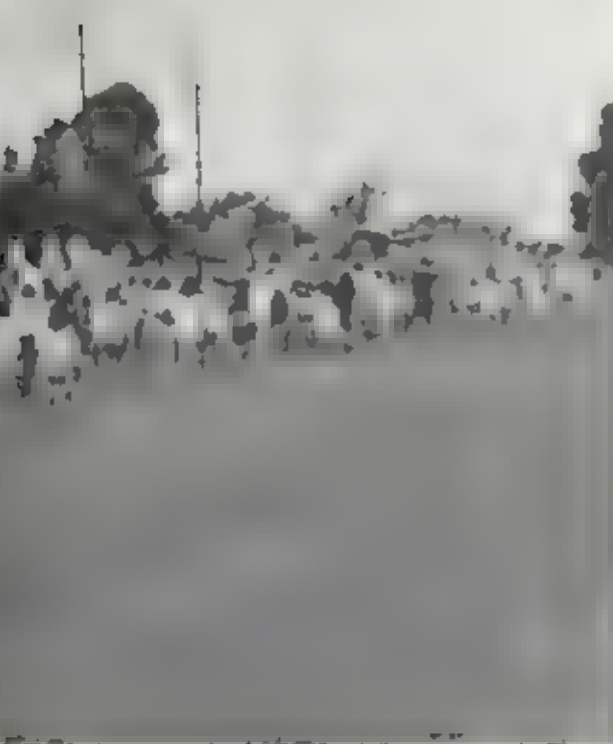

The Spanish club was one of the most active groups in the school. They had a lot of fun and were very helpful to the community. They also had a lot of success in their projects and were very proud of what they had accomplished.

You may wonder, why the Spanish club would even consider raising part in a Hunger Walk. But there was a very good reason for it, most of the money raised would go to Spanish speaking countries.

Concern was the organization which sponsored the event, and anyone who wanted to come was welcome. They were especially grateful though, to have the Spanish club come as a group.

Some of the people who went with Spanish club to walk were

Martin Dahl, the club's President, **Michael Kutzik**, its vice president, and **Nicole Dalding**, all juniors. Not surprisingly, this group of juniors made up half of those attending from our school. Truly, the junior group was the more spirited and supportive than any other. 89 RJLES

On your marks, get set, GO! Hunger Walkers begin their 3 hour journey.

Juniors:

After having completed 11 years and now being in their 12th year of school, (remember kindergarten), juniors should have heard about every excuse there is

Well almost. Excuses ranged from the usual, "I left it at home," to "I had to walk to school in the rain, my folder dropped and all the papers got ruined". There was also, "I went skiing on vacation and I left it in the cabin", "I put it in my other folder," and "I did the wrong page". Or as **Anne LoFave** said, "You didn't tell us that!"

But there was one extremely unique excuse by Susan. "My sister got mad at me and tore up all my maps, so I couldn't turn the assignment in." Why didn't her parents write her a note? "They're on vacation in Europe, and my housekeeper refused to write one." Uh Huh! Of course Susan was not a student at our school. Estancia students usually do their homework.

Juniors:

For the Youth Ambassador Program, the strained relations between the United States and Russia by using the leaders of the future children.

This organization sponsored Youth Summit Between Russian and American children in the spring of 1988. They chose two high school students from each state except California, from which they took four. One of the four chosen was **Arielle Lawson**.

The Youth Ambassador Program screened many applicants, so to pick those they thought to be most suitable for this important task and **Lawson** was one of the select few.

Lawson said she applied because she was concerned about the prob-

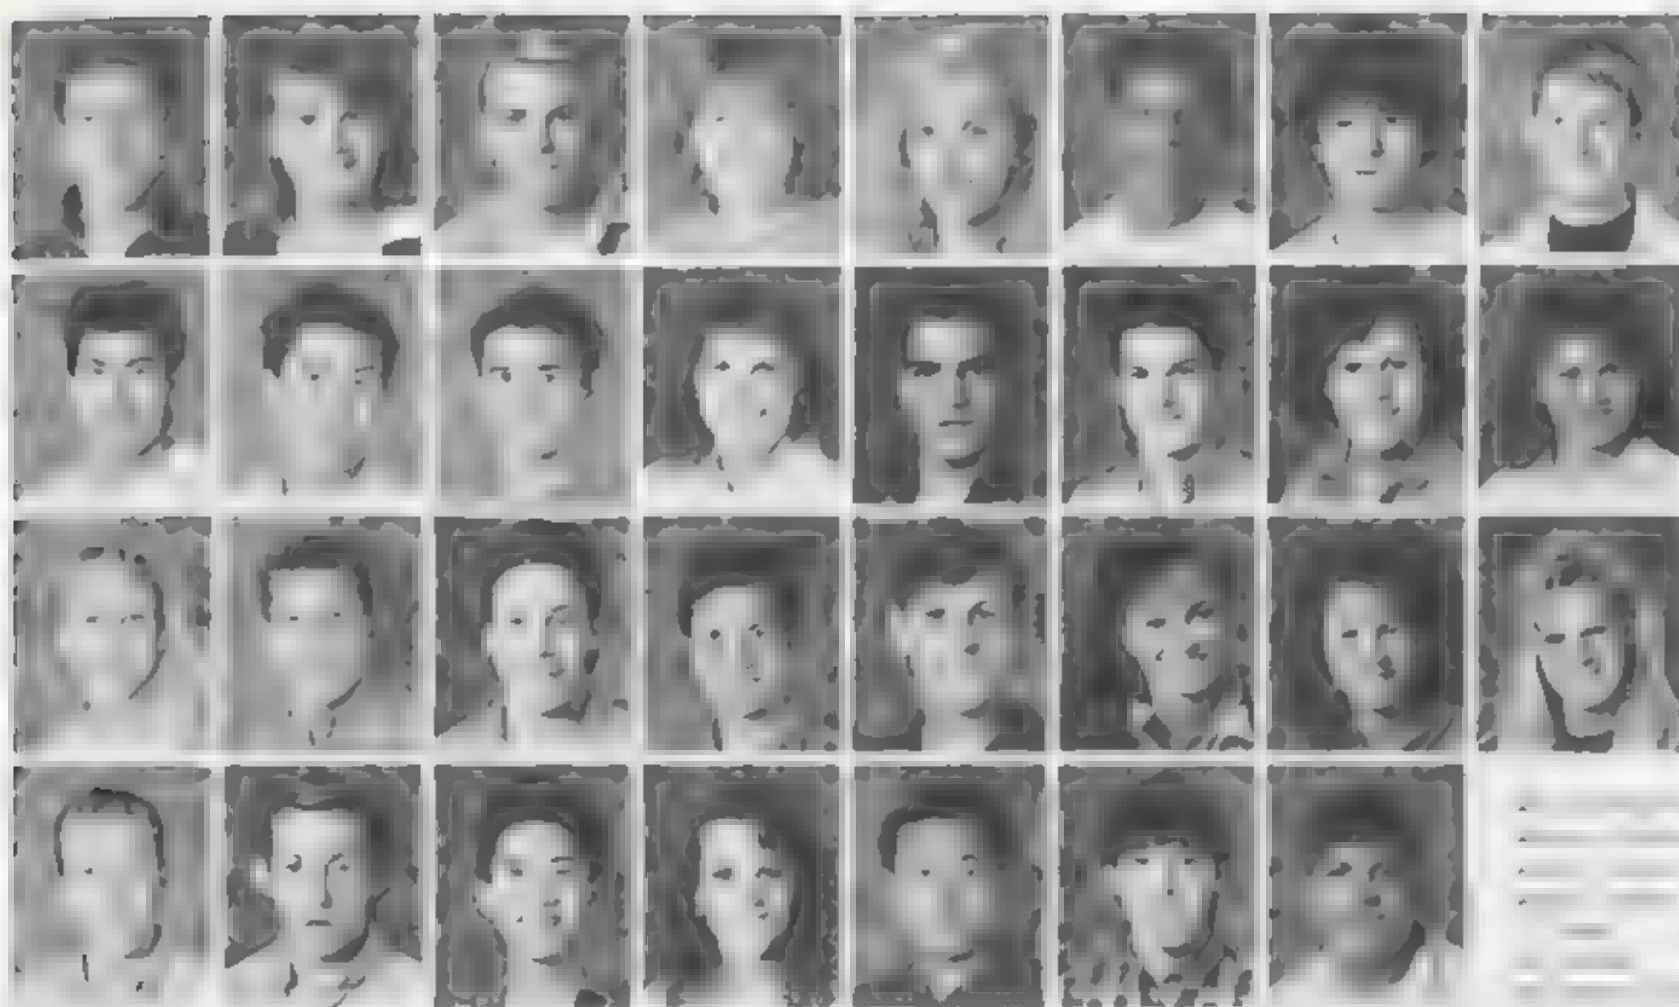

lem of world peace and perhaps bring new hope to that cause.

The students from America were met by their Russian counterparts and traveled to Helsinki for a two day briefing on protocol. Then they traveled to Moscow, Leningrad, and two smaller cities in the country. Along the way, they met with several school children and met with a few Russian delegates.

During the visit, the students talked about possibilities for creating world peace. **Lawson** pointed out that, "people think it isn't possible or impossible, but you have to work at it and try to make it happen."

Hopefully **Arielle Lawson's** trip will help bring peace to the world.

Camera Shy Juniors

Faculty:

Teachers are an extra special group of people. As they teach, they also learn. They learn the importance of being a role model and the importance of being a good person. They learn the importance of being a good teacher and the importance of being a good person. They learn the importance of being a good teacher and the importance of being a good person.

Ms. Granite
Mr. Palmer
Mr. Sunderman

Mr. Wolf

Mr Wolf

Faculty:

Do you ever just sit in class and wonder why you are so bored? That's the worst thing that could happen to a student in a class. It's kind of like the teacher "Noid" from the movie "Naked Gun" where he just sits there and does nothing. They want you to be bored and to go to sleep but for the student it's hard when you are so bored.

Student boredom was what teachers like **Mrs. Fenstermaker**, one of our Spanish teachers, tried to avoid with her decorative room with a comfortable atmosphere and her creative ideas. Or **Mr. Higgins** with his exciting noises and cheerful dancing. Or **Mrs. Tipper** with her stories of her son Geoffery and her creative myths of do's and don'ts in Math or even her incredible mind bending toys.

The Science court seemed to have their own unique techniques to fight boredom. **Mr. Adams** entertained with his tall tales and his wonderful toys. Then there was the unique humor of **Mr. Wynkoop** whose continual humorous expressions amused the class. And one can't forget the classy but twisting songs of **Mr. Cullen**.

These and other teachers really care. They don't come to school to just get through the day, they come to teach.

Mr. Jenner is relieving tension after a hard day of teaching his freshman history class.

 MISS KATHLEEN HARRIS

Faculty:

Meet three married couples that live and work together. **Mr. and Mrs. Blanton**, **Mr. and Mrs. Hurt** and **Mr. and Mrs. Cullen**. **Mr. and Mrs. Blanton** first met at a Long Beach State class, and as **Mr. Blanton** described it, "Our eyes met across the room and I knew **Mr. Blanton**, (or Sweet Eddy as they say), was coaching football at Long Beach, so naturally their first date was to a football game. About a year later they were married. As **Mrs. Blanton** put it, "there was never a doubt in either of our minds. We both knew it was right."

Mr. and Mrs. Hurt's story is quite different. They met at Estancia. **Mr. Hurt** called her up for a date to the Laguna White House which started their love affair. But before they got married, they used to sneak around school, not wanting faculty to know of their romance. **Mr. Hurt** said "She was very young and beautiful." **Mrs. Hurt** said "He's cute but he's very shy." They were married in 1978, very much in love, and still are.

Mr. and Mrs. Cullen met through **Mrs. Cullen's** daughter who at the time was in **Mr. Cullen's** class. They met on a back-to-school night and their first date was at a faculty party in Newport Beach. They went together off and on for two years and in 1980 they were

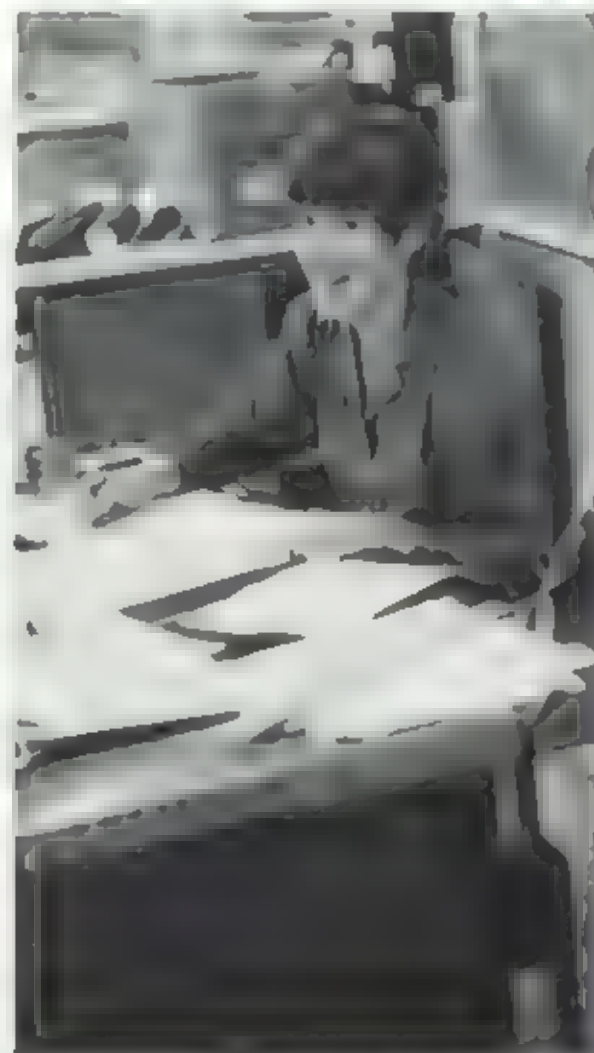

married. **Mrs. Cullen** likes working together because she believes "we can contribute more to the school and activities." **Mr. Cullen** likes it because he gets to see his beautiful wife. "The first time I saw her I thought she was gorgeous."

"Sweet Eddy the love machine" shows us that he always has time for **Mrs. Blanton**.

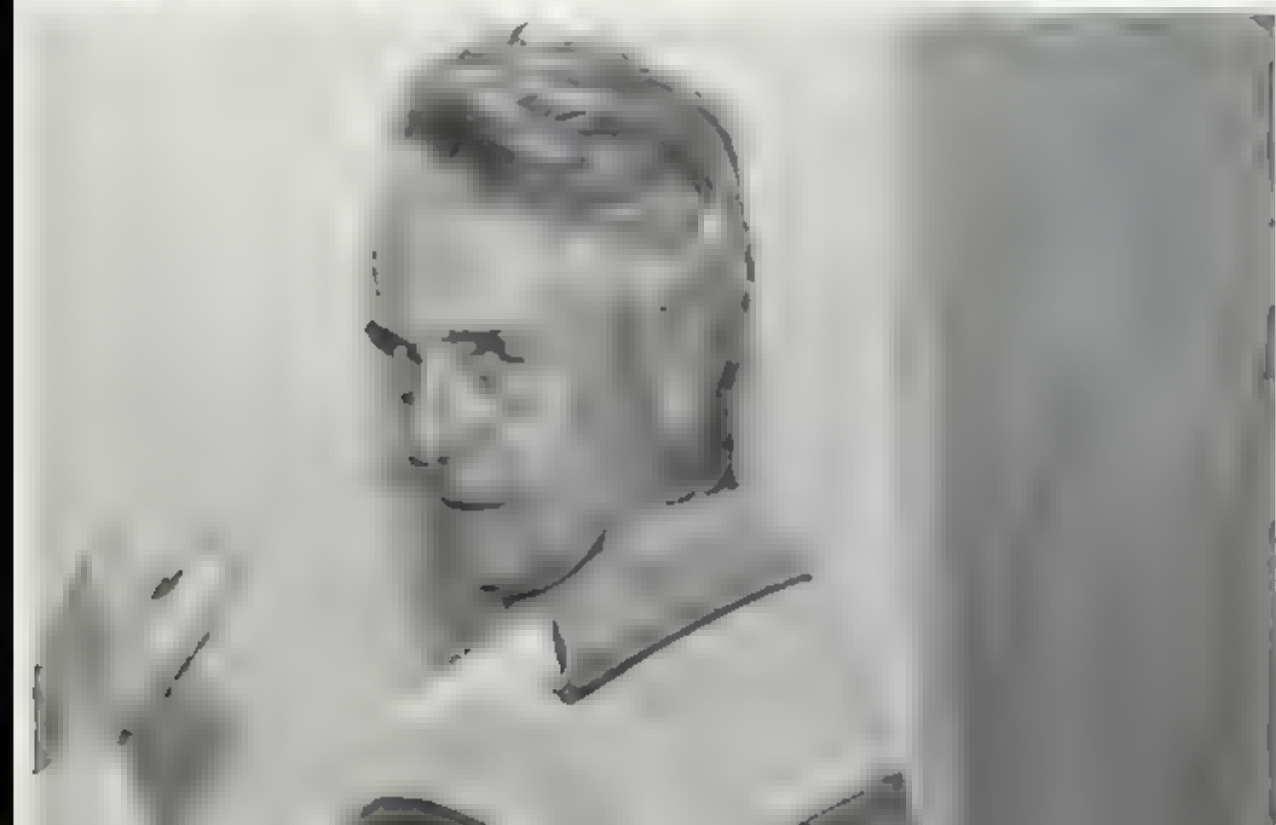

With that beautiful smile we know why **Mr. Cullen** couldn't resist **Mrs. Cullen**.

which is better than the other one.

Mrs. Reilly goes deep into the water with her 25 ft boat. She says, "I like being outdoors. I really like the sense of being outdoors."

Mr. Wolf has a Ultralight airplane. He says, "I like a free feeling."

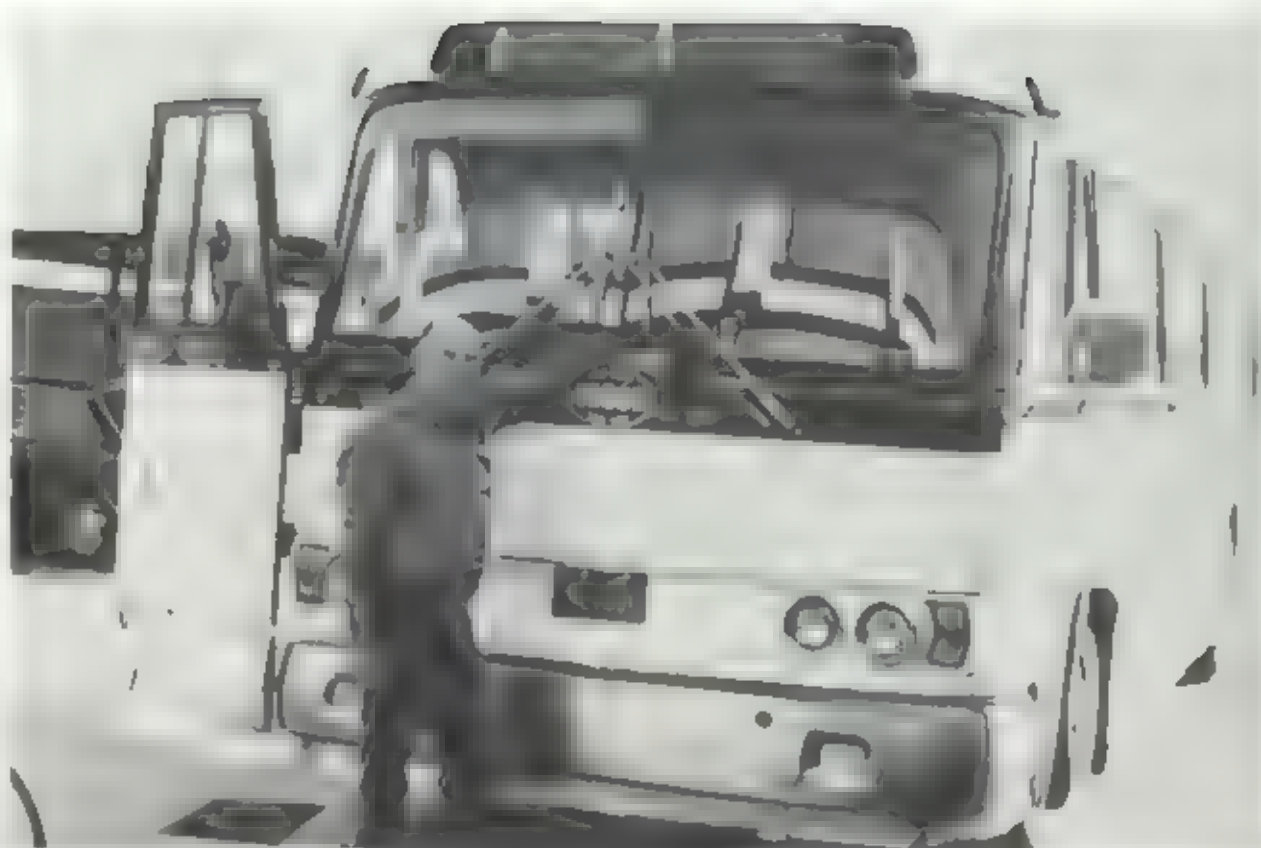

We also have a **Mr. Harvey**, one of our English teachers is an amateur clarinetist. His advice to you is "If you're interested in music, it's a great life. If you like it, go for it."

We also have two equestrians in the group **Mrs. Svendsen** and **Mr. Jenner**. **Mrs. Svendsen** breeds beautiful Arabian horses.

To see a new foal in the spring is a beautiful sight. **Mr. Jenner**, on the other hand, shows his marvelous Morgan horse.

It's an essential part of my life. After I retire I hope to have a horse farm somewhere in Arizona.

Maybe the most unusual hobby is practiced by **Mr. Waters**. He owns a Greyhound bus which he converted into a mobile home. He likes driving it because "I can feel the power of it. It wants to go fast!"

Faculty:

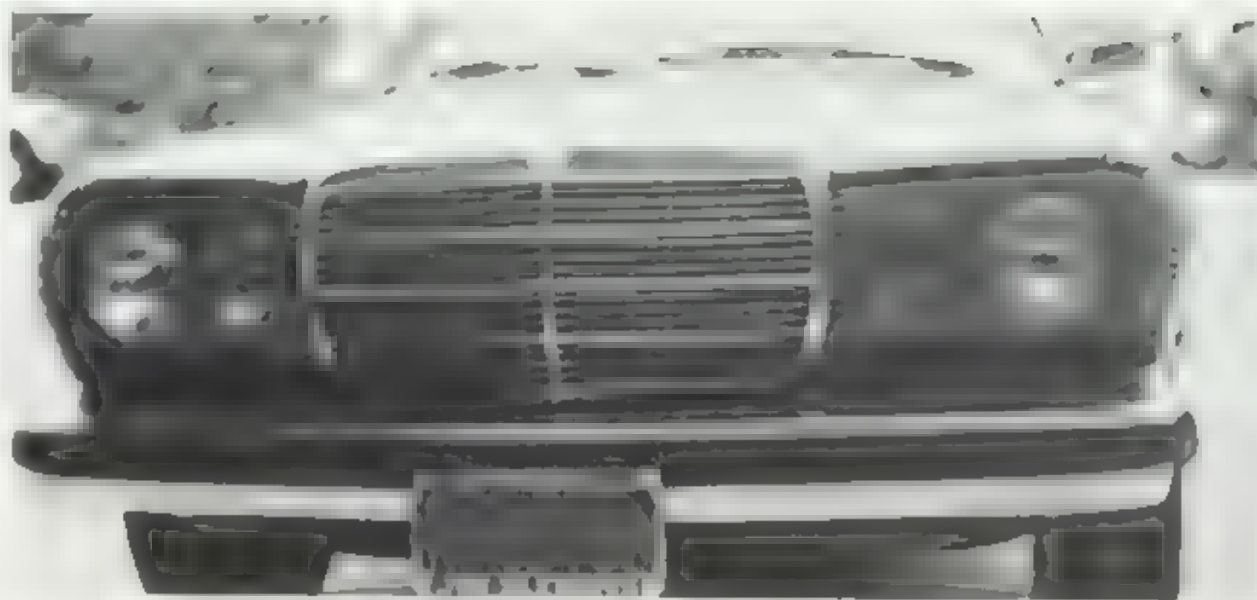

Haley, a French teacher, is a member of the faculty. He is a very good teacher and a very rich man. He has a very nice house there, such as **Mr. Sunderman's** hot looking Porsche 911 T, which he modestly admits is a fun car.

Then there is **Mr. Robitaille** who drives a Camaro. Does the car make girls look at him? His reply was "Why, they're not looking at the car!"

Who can forget the pair of Mercedes owned by one of Estancia married couples, the **Hurts**. It's easy to tell theirs from others with their license plates "IM HURT" and "HURT TOO."

But if we mention one Mercedes we've got to mention the other one owned by **Mrs. Reilly**, one of our French teachers. She said "J'aime ma voiture!" (I love my car).

Yet we can't forget the awesome Ferrari owned by **Mr. Warren**. He said "It's a ball. You can cruise at a high speed and virtually feel the power!"

1. The first part of the document discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. It emphasizes the need for a systematic approach to record-keeping, such as using a ledger or accounting software, to ensure that all financial data is properly documented and organized.

2. The second part of the document focuses on the process of reconciling bank statements with the company's internal records. It outlines the steps involved in comparing the bank's records with the company's ledger, identifying any discrepancies, and investigating the causes of these differences. This process is crucial for ensuring the accuracy of the company's financial statements and detecting any potential errors or fraud.

3. The third part of the document discusses the importance of regular financial reviews and audits. It highlights the need for management to regularly review the company's financial performance, including key metrics such as revenue, profit, and cash flow. Additionally, it emphasizes the importance of conducting external audits to provide an independent assessment of the company's financial health and compliance with applicable laws and regulations.

4. The fourth part of the document discusses the importance of maintaining accurate records of all assets and liabilities. It emphasizes the need for a systematic approach to asset management, including regular physical counts and reconciliations with the company's records. This is particularly important for companies that own significant amounts of physical assets, such as inventory or equipment, to ensure that these assets are properly valued and accounted for in the financial statements.

5. The fifth part of the document discusses the importance of maintaining accurate records of all income and expenses. It emphasizes the need for a systematic approach to income and expense tracking, including the use of a general ledger and sub-ledgers to categorize and record all financial transactions. This is essential for preparing accurate financial statements and for tax reporting purposes.

6. The sixth part of the document discusses the importance of maintaining accurate records of all cash flows. It emphasizes the need for a systematic approach to cash flow management, including the use of a cash flow statement to track the company's cash inflows and outflows. This is crucial for understanding the company's liquidity and for making informed decisions about capital expenditures and financing.

7. The seventh part of the document discusses the importance of maintaining accurate records of all debt and equity transactions. It emphasizes the need for a systematic approach to debt and equity management, including the use of a debt and equity schedule to track the company's outstanding debt and equity. This is essential for understanding the company's capital structure and for making informed decisions about debt and equity financing.

8. The eighth part of the document discusses the importance of maintaining accurate records of all taxes and other legal obligations. It emphasizes the need for a systematic approach to tax and legal management, including the use of a tax and legal schedule to track the company's tax and legal obligations. This is crucial for ensuring that the company is in compliance with all applicable laws and regulations and for avoiding potential penalties and fines.

9. The ninth part of the document discusses the importance of maintaining accurate records of all other financial information. It emphasizes the need for a systematic approach to other financial management, including the use of a general ledger and sub-ledgers to track all other financial transactions. This is essential for preparing accurate financial statements and for providing a complete picture of the company's financial health.

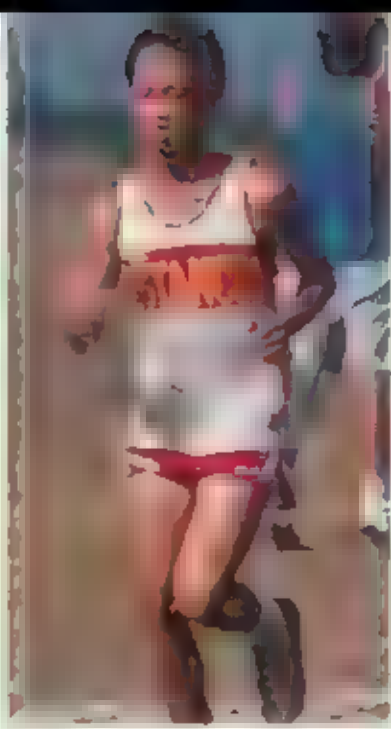

10. The tenth part of the document discusses the importance of maintaining accurate records of all other financial information. It emphasizes the need for a systematic approach to other financial management, including the use of a general ledger and sub-ledgers to track all other financial transactions. This is essential for preparing accurate financial statements and for providing a complete picture of the company's financial health.

Flash On Sports

By Ha Pham
A female athlete in a white and orange track uniform is running. She is wearing a white singlet with orange accents and orange shorts. She is captured in a dynamic pose, with her arms and legs in motion. The background is dark and out of focus.

Expectations For Success And Jumping To New Heights

Teamwork was the key that opened the door to success in volleyball. When we play together, we can beat teams like these!" exclaimed coach **Tom Pestolesi**, following a winning game against Newport Harbor High. Pestolesi, experienced coach and volleyball player, taught the team much about teamwork and playing with emotion.

Volleyball was led by not one or two players, but by several members of the team. Senior **Kellie Kane**, has set for Estancia for four years and was an undeniable asset to the team. Another four year letterman, **Stacy Bekemeyer**, used her height and strength to the Ea-

ren heard from **Pestolesi** about the spikes of both **Karen Schlessinger** and **Jeana Weber**.

Coach Pestolesi was proud of the members of the team and is hoping for a strong season next year. With the playing of junior **Susan Baker**, sophomores **Marie Midland** and **Carrie Schafhauser**, and freshman **Brandi Brooks** the chance for a very good

I Was So Excited I Asked Questions About Life

Well, I suppose the most memorable event during our season was the Freshman Initiation. I said **Jeh Hildebrand** with a huge grin on his face. "Of course there was no physical harm whatsoever and it only enhanced the team spirit."

The team bond was stronger than ever, and the Eagle spirit soared. However, for the boys cross-country team, the competition was no laughing matter. Because of lack of runners in both the JV and Varsity teams, they suffered greatly. This was later reflected in their scores. But the runners never gave up their pursuit of victory. They worked daily on their speed. Even the dreaded "puke-hill" training was accepted with enthusiasm.

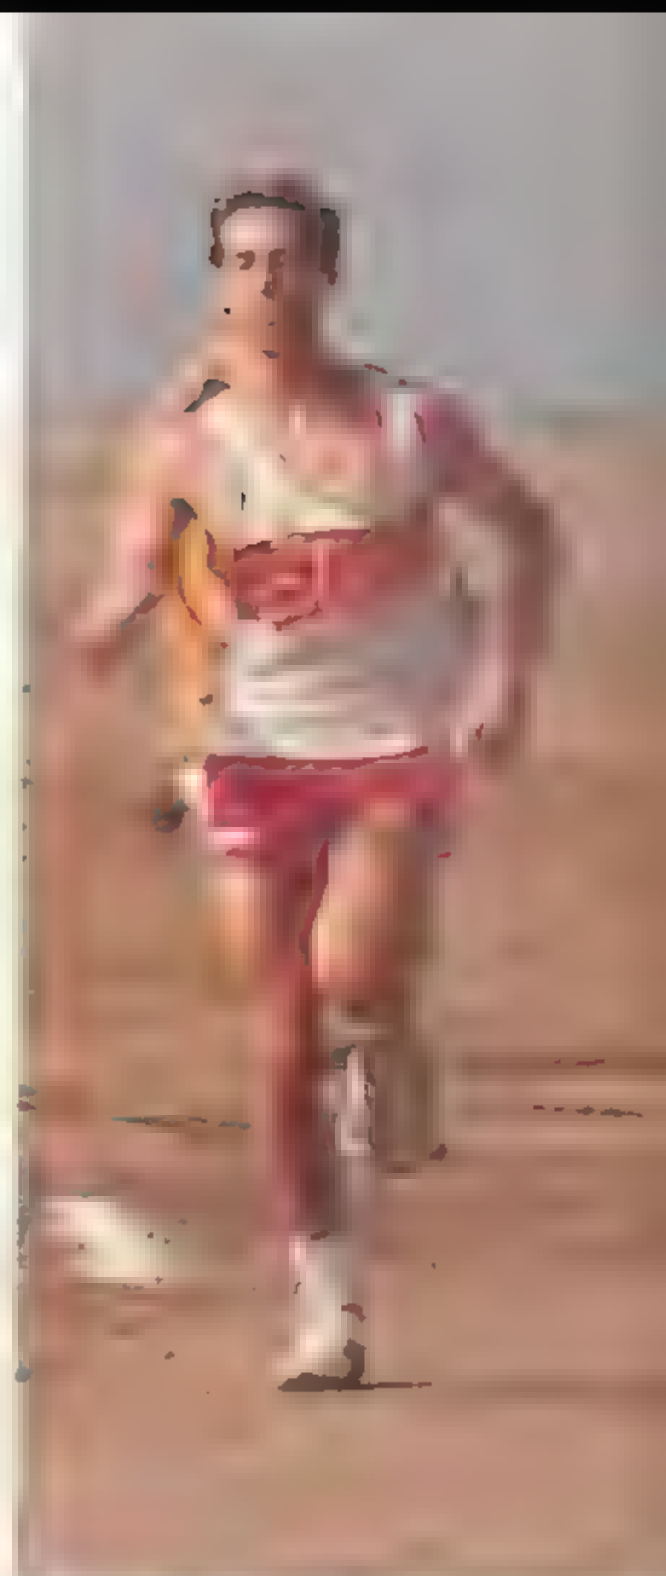

During practice, **Kevin Keith**, **Jon Dube** and **John Deth** from the easy 100 school.

some time I liked to ask questions about life. I received **Scott Freeman** to the team. He asked me questions about life.

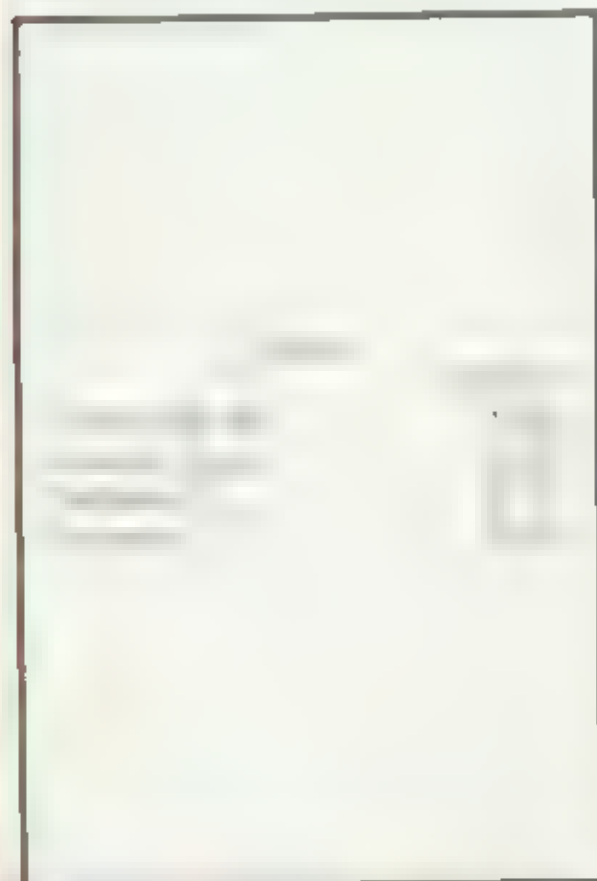

The team members followed the spirit of one for all and all for one. The goal was to run and to endure.

The cause of the collapse in the team was the lack of pre-season training. With only four weeks of practice over the summer, the team found it difficult.

During a meet against Irvine, Chris Strople
takes off in a backstroke race

Coach John Carpenter

Swimmers Striving for Success

Estancia High School had a dedicated varsity swimming team. Headed by team captains **Mike Milby**, who swam 100 yard butterfly, and **Sarah Miller**, whose stroke was freestyle, they set certain goals which included improving their time, their strokes, and winning. The team started working out every morning at 6:00 am during the season, and stayed after school for two to three hours.

Most of the team members agreed that there was a great deal more involved than just swimming. **Milby** said, "You get psyched up a lot before a meet. You feel bad if you don't win but it makes you feel

better if you improve your time." According to **Steve Fineberg** whose event was sprint freestyle.

Varsity's a big unit. There's a lot of teamwork."

Willie Swanson did distance freestyle. He said he was in the team "Because I like it. I'd like to improve my time and win but it's also for the good of the team."

The varsity swimming team learned what it takes to be a successful team. It takes hard work, dedication and discipline.

Enthusiastic Coaches And Dedicated Swimmers Made 3 Great Teams

Both JV and Varsity teams were the future. Those who joined the team were hard working students who were there to learn.

The Boys' Freshman/Sophomore team started off the season strong and to be undefeated with a 10-0 record. Unfortunately, the team lost a few of its strongest members and the team was not able to win three more.

The Fresh/Soph Girls' team consisted of mostly freshmen. Their season went smoothly, with no outstanding losses. The JV team fared the same.

All three teams agreed that their success was due to great coaches

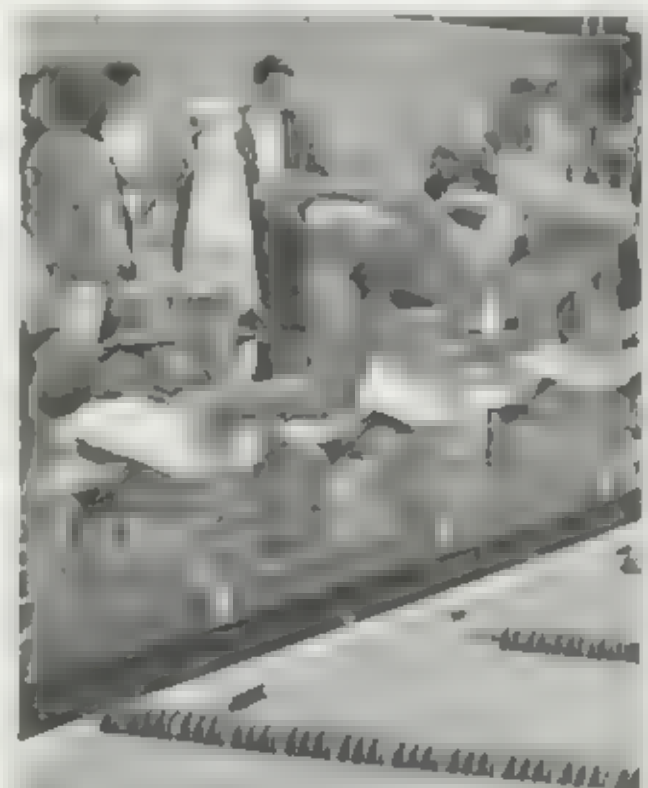

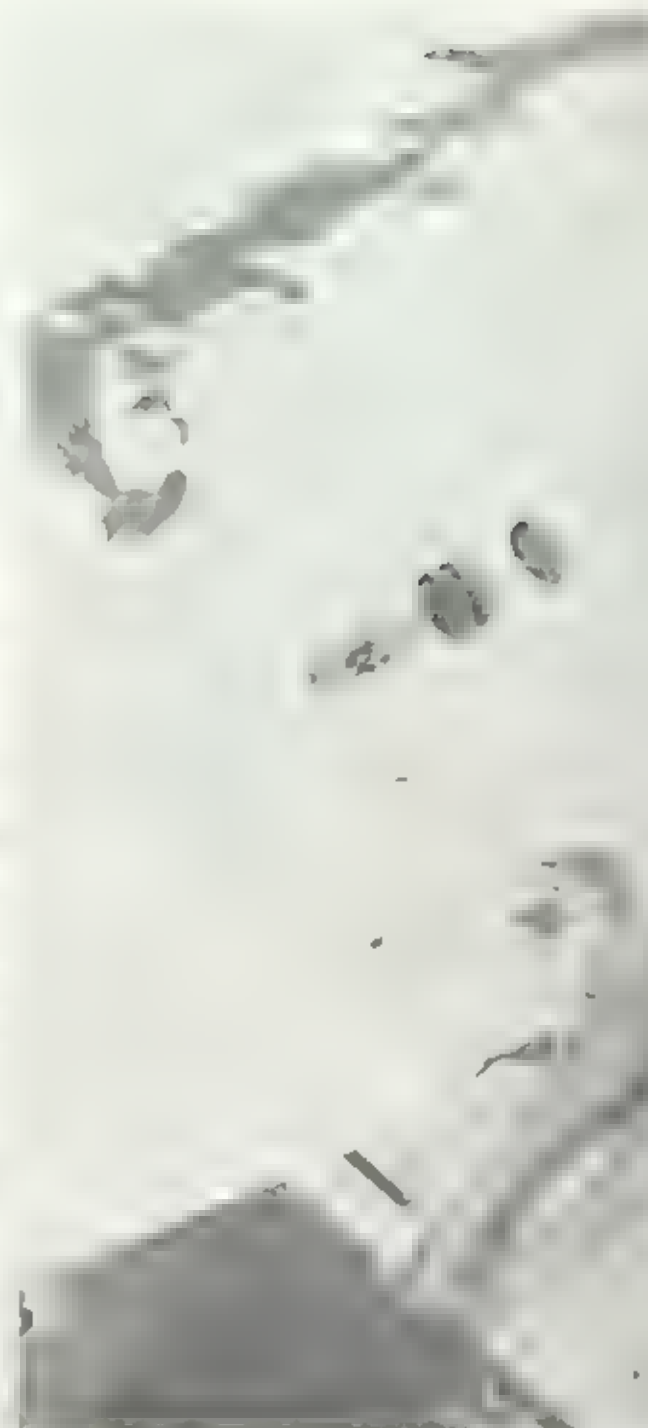

and dedicated swimmers. **Erin Driskell** and **Steve Heiberger** were the coaches for the boys' teams.

workout. But he is a great coach. **Jeff Korenberg** was a great coach. About Coach Carpenter. "I was a great coach giving a chance. He had a great workout."

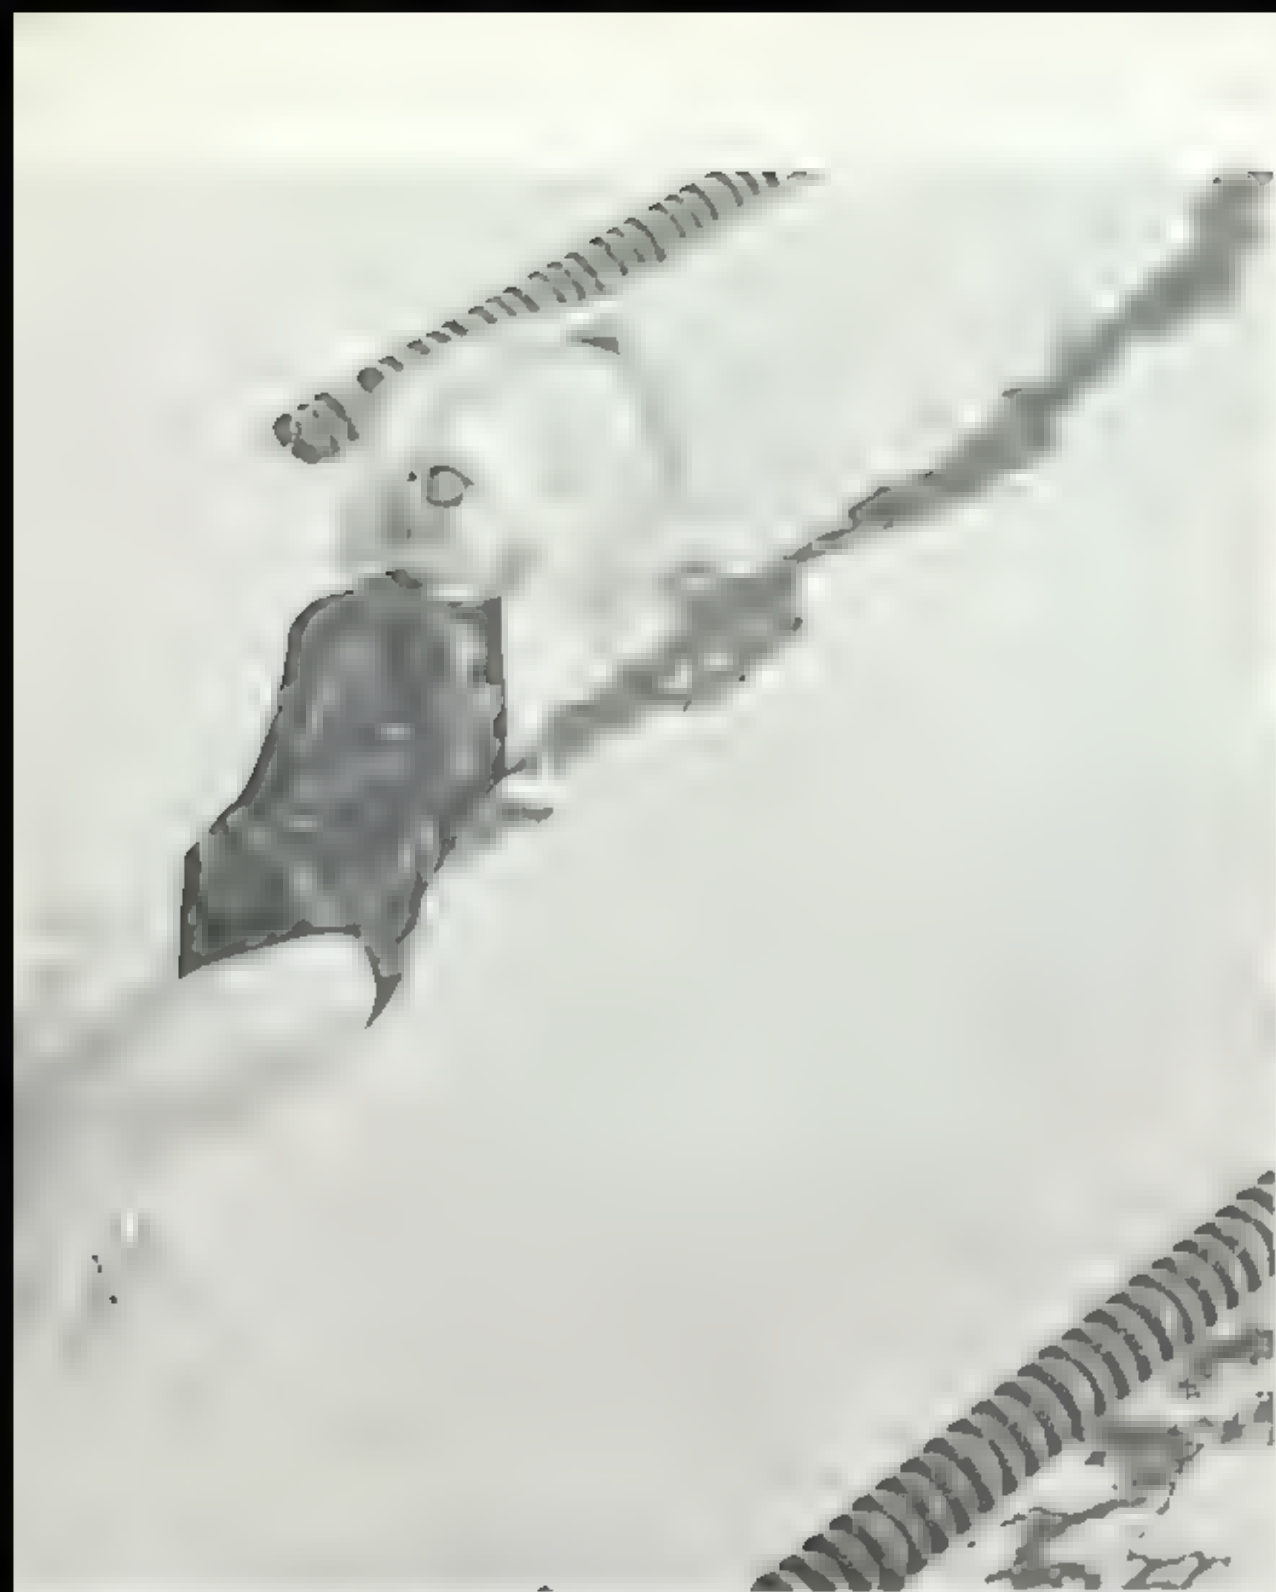

I would say that our teams did so well because we had enthusiastic coaches and dedicated swimmers. said **Rob Corneado**. And if we stay together for two more years we'll be unstoppable!

Jumping And Running On The Right Track

The track team was determined to "reach personal goals and achievements," according to **Stephanie Urrea**. Their emphasis was more on personal records than team victories because there was a general feeling of a lack of varsity depth. "The biggest problem was trying to get more people out for the sport," said **John Beth**.

For those that joined the team, a typical workout consisted of warm-ups, then sprints and speed work for short distance runners, and a long run for those in long distance. After their workout, runners worked on their personal techniques. Sprinters practiced getting out of their starting blocks fast, relay members worked on passing the batons, and distance runners practiced pace and

speed technique. Meanwhile, hurdlers and sprinters were trying to perfect their form and speed. **Stephanie Urrea**, a hurdler, described the hurdle group as "very

close and high spirited."

Other events in track included the pole vault, shot put, and discus. Pole vaulter **Scott Chesebro** said, "My biggest achievement was to be the Beach Cries champion last year." His goal for the season was "to reach the state finals."

Whether they won, lost, or tied, our track members did their personal best.

Jeh Hildebrand makes his way to the finish.

All Players Agreed: it is A Mental Game

The golf team is a group of students who are passionate about the sport and determined to succeed. Kumi Takahashi, a good golfer, is a varsity member. Golf is a sport that requires you to think you can and hit the ball.

The golf team had a successful season due to their hard work, which lasted 34 hours. One of the main reasons the members joined the team was through Austin Maki's influence. Cause it's in my blood. All of the golfers realized the difficulty of the sport and

Experience Leads To Victory Catch Us Now

Varsity softball consisted mostly of seniors, whose talent and experience continuously showed throughout the season. Eagles' softball prided themselves on their ability to consistently play as a team.

"Since we got a new coach, our teams attitude towards softball has changed," said **Melony Wojtkiewicz**, referring to first year Coach **Tammy Kane**. Coach Kane, "Tammy," graduated in '86, and along with previous years of playing, she played varsity softball for four years here at Esencia. Having a great deal of softball experience along with knowing many of the teams members, she was able to reach the team much about the sport.

During the season, the team

worked hard in all areas. We have a really strong defense and a lot of determination," said **Marie Mid-**

land, varsity's second baseman. It was this determination that helped the Eagles to have such a successful season.

Cheryl Ackers, another talented coach new to softball, led the junior varsity to a very good season. "She motivated us to play as a team, not as individuals," said **Lisa Fuentes**. She continued on to say, "She worked us hard, but it payed off in games." JV had an impressive year with their domination in the field, and their strength at the bat.

All Emphasis Was On Their Enjoyment

For many players, a game of soccer turned out to be a chance to let out their frustrations and keep themselves "sane."

"I don't know what I would do if I can't play soccer. I would explode or something", stated **Mark Kirsch** who had been playing this sport ever since he was five years old.

Behind the hard work, there was a chance to have fun and start a friendship. Believe it or not, the emphasis was on enjoying themselves, and, if that became impossible, playing became meaningless.

Mark Kirsch said that one person could not make up the team and that everyone had to play as

one. The best parts are when you are playing with your friends. **Sean Daley** said, "We score goals."

Soccer was a "constant sport" where the ball "never went out of plays" and, according to **Chris Lawry**, "you really have to run

Varsity, Tradition Of Winning!

You're on the mat and every muscle in your body is being worked. You're about to pin your opponent for the win. What's the feeling like? For a varsity player it's torture! As **Brian Wallace** put it, "It's an awesome feeling when you know you're going to win but if you make a mistake or let down your guard, anything could happen!"

Varsity players practiced at least five hours a day. Daily practices consisted of running (sprinting) with five second intervals of jump roping, running up and down bleachers and god ole' "Rusry." Rusry is a grueling

sprint of going back and forth on lines! As **Rod Corrido** said, "It takes a lot of time on with an outstanding Coach!"

When you've been League Champions for the past three years to be a wrestler is to be proud! "It's not a free walk trying to be varsity. You've got to work for it to be the best!" said **Ron Miller**. "Winning is the best part," said **Corrido**. "It's an individual sport and if you win you know you've achieved the best!"

Carrying On Dreams And Hopes Of Winning!

It's game point and you're serving the ball. You can feel the pressure mount as you bring your hand up and hit the ball. The ball is a success. You're feeling more relaxed than now the ball comes to you. You know it's up to you to make that point.

What's it really like when you know it's up to you?

It's a lot of pressure, you just have to do what feels good," said **Mark Kirsch**.

Volleyball is a sport that can be played almost anywhere. "It's fun to play at the beach, you can get your frustrations out on the ball," said **Kirsch**. However, **Todd Brooks** believed that volleyball is "a team

...we ever
...work together

Kevin Keith believed that the team was a team w...

Mr. Todd Brooks He was ... and was doing very well.

Brooks felt that, "Coach Pestolesi had a much better attitude. Practices were more intense, we worked harder for a shorter time."

But the best way to sum up the season was as **Keith** put it, "we were real compererve, we had a lot of experience, we put it together and worked hard!"

Erin Graham, Rachel Kent, Glenn Desandre, Susie Stewart, Kris Desandre

Maryanne Mosher, Kris Choi, Karen Burns and Jennifer Duffy look at other schools' yearbooks

The yearbook is a collection of memories and stories from the past year. It is a place where students can look back on their experiences and see how they have grown. The yearbook is also a place where students can share their talents and interests with their peers. It is a place where everyone can find something to love and something to be proud of.

The yearbook is a place where everyone can find something to love and something to be proud of. It is a place where everyone can find something to love and something to be proud of. It is a place where everyone can find something to love and something to be proud of.

The yearbook is a place where everyone can find something to love and something to be proud of. It is a place where everyone can find something to love and something to be proud of. It is a place where everyone can find something to love and something to be proud of.

Summer Lund half way dressed for the Halloween Homecoming game.

Kristy Koch and Mr. Moody discuss article for the school newspaper.

Brandon Gordon, Michelle Stolar, Laura Robbins, Deanna Gloster, and Tara Emery relax for the last few minutes of lunch.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion.

As the world's population grows, the demand for food and other resources will increase. This will put pressure on the environment and on the world's food supply.

One way to meet this demand is to increase the amount of food that is produced. This can be done by using more land for agriculture, or by increasing the productivity of the land that is already being used.

Another way to meet this demand is to reduce the amount of food that is wasted. This can be done by improving the way that food is stored and distributed, or by changing the way that people eat.

There are many other ways to meet this demand, and it is important that we find ways to do so that do not harm the environment or the world's food supply.

One of the most important things we can do is to make sure that we have enough food to eat. This means that we need to make sure that we have enough land for agriculture, and that we have enough water to grow crops.

We also need to make sure that we have enough food to eat that is healthy and nutritious. This means that we need to make sure that we have enough food that is safe to eat, and that we have enough food that is good for us.

There are many other things we can do to make sure that we have enough food to eat, and it is important that we do so. This is because food is one of the most basic needs that we have, and it is something that we need to survive.

So, let's make sure that we have enough food to eat. This means that we need to make sure that we have enough land for agriculture, and that we have enough water to grow crops.

We also need to make sure that we have enough food to eat that is healthy and nutritious. This means that we need to make sure that we have enough food that is safe to eat, and that we have enough food that is good for us.

There are many other things we can do to make sure that we have enough food to eat, and it is important that we do so. This is because food is one of the most basic needs that we have, and it is something that we need to survive.
